Energy Efficient & Green Building Features

SURFSIDE homes are **ENERGY STAR®** qualified and are the recipient of a 2010 ENERGY STAR *Leadership in Housing Award*, and a National Association of Home Builders (NAHB) *Green Building Award* as one of the **Top Multi-Family Developments of the Year** nationwide.

- ✦ All refrigerators, dishwashers, washer/dryers and ovens are ENERGY STAR® qualified
- ✦ *Icynene* Insulation within the exterior walls exceeds all code requirements and provides the tightest thermal barrier available while significantly reducing noise migration
- ✦ *USG Mold Tuff* drywall on all partitions to mitigate the impact of any water and or moisture
- ✦ *Sherwin Williams Pro Green 200* low VOC Paints
- ✦ *A.O. Smith Pro-Max High Efficiency* Electric Hot Water Heater
- ✦ *Armstrong High Efficiency* Sealed Combustion Furnace - all duct work taped and sealed at joinery and each unit individually tested for air leakage
- ✦ Each home outfitted with a custom designed and tested noise reduction shell to exceed what is considered "standard" for a luxury condominium development
